### PROCESS

Tanya paints portraits of children from her own photographs, after a short "sitting" with the child/children. The sitting time is approximately 30 minutes.

The timing of the sitting is dependent on the age of the child and level of complication of the planned portrait.

Occasionally Tanya needs to have a second sitting.

The place of the sitting is discussed with the client and dependent on the nature of the portrait and mutual convenience: the sitting can be at the child's home or at Tanya's studio.

The portrait is completed in the studio. The usual time for completing a portrait is 6 weeks. At the time of the sitting, Tanya will give you an accurate time frame.

The portraits are delivered unframed, but Tanya is happy to give advice on framing, or to organize suitable framing.

For all enquiries and appointments, please contact Tanya directly by phone, email, or through her website.
